

White-label flow: your platform already has the patient on file (registered, ID-verified, consented). Skip steps the wizard would otherwise re-collect, prefill the patient block, and pass through the structured ID metadata + consent acknowledgements you captured upstream.

The integration pattern

```
// 1. Pre-fill demographics + answers (keyed by field slug)
PrescribeRx.prefill({
  first_name:  'Jane',
  last_name:   'Smith',
  email:       'jane.smith@example.com',
  date_of_birth: '1988-03-22',
  phone:       '555-555-9876',
  current_weight_lbs: 185,
  weight_goal:  'lose_15_lbs'
});

// 2. Skip steps you've already handled upstream
PrescribeRx.setSkipSteps([
  'identification', // already verified during signup
  'payment-step',   // charged on our gateway already
  'review-step'     // fast-path through review
]);

// 3. Pass through ID metadata captured during your signup flow
PrescribeRx.setIdentification({
  id_type:  'drivers_license',
  id_number: 'D1234567',
  id_state: 'GA'
});

// 4. Pre-mark consents the patient already accepted on your platform
PrescribeRx.setConsents([
  {
    consent_type: 6, // Telehealth (see /api/docs/field-
    consent_text:  'I consent to telehealth consultation.',
    consent_version: '2.1',
    consented_at:   '2026-04-15T10:32:00Z',
    signature_method: 'click'
  },
  {
```

```
consent_type: 7, // Controlled substance
consent_text: 'I consent to controlled-substance prescribing.',
signature_method: 'click'
}
```

Try it

prefill (full patient block)

setSkipSteps (3 steps)

setIdentification (DL)

setConsents (telehealth + Rx)

Run all 4 above

Reset wizard

Live wizard

SANDBOX MODE — TEST TRANSACTION ONLY. No real charges will be processed. Use test card **4111 1111 1111 1111**, any future expiration, any 3-digit CVC.

Tip — consent_type values

1=HIPAA · 2=TCPA · 3=SMS · 4=Email · 5=Terms · 6=Telehealth · 7=Controlled-substance · 8=Privacy · 9=BAA · 10=Disclosure · 99=Custom

See [field-mapping](#) for what each consent type unlocks downstream + how the audit log row is shaped.
